## Tin Disposal

### Purpose

The purpose of this document is to ensure proper disposal of tins. This is just guidance from CPG UK.

### Statement

Fully dried product residues or contamination of <1% in or on empty, used packaging of system S, SC Basecoats and Nullifire Topseals are not classed as hazardous or controlled waste and can therefore be disposed of as general building waste (if all reasonable efforts have been made to remove any left-over contents from the container.)

Any more significant volume or any uncured, wet product/residues remaining in packaging may be classified as hazardous and therefore Section 13 of the Product Safety Data Sheet should be referred to.

### Technical Service

Nullifire has a team of experienced Technical Sales Representatives who provide assistance in the selection and specification of products. For more detailed information, service and advice, please call Technical Services on 01942 251400.
